

U. S. TRIUMPHS IN JAPAN QUAKE

"Skyscrapers" Keep Vigil Over Ruined Cities.

New York, Sept. 5.—(Special.)—Reports received in New York today indicate that the estimates of loss of life and damage to property in the earthquake disaster are not as great as was feared. Private cables from the Japanese government indicate that American built structures in the devastated area stood up against the crash of earthquake, fire, and flood.

Baron C. Watanabe of Osaka, prominent Japanese financier and president of one of the largest public utility corporations in Japan, who arrived here today from the west, said that he had word from the governor of the province of Osaka that it was believed the total deaths in the whole of the earthquake region had not exceeded 100,000.

Find Many Abundances.
"There have been no many contractions and abundances in the cables from the far east," said Baron Watanabe, "that I can overstate the reports have been exaggerated."

For example, take the island of Oshima, which was reported totally submerged. There is a mountain 8,000 feet high on the island, so that the disappearance is an impossibility. Other islands which to my knowledge are many thousand feet high are reported as "dead to the ground."

"That in Tokyo and Yokohama, in the business area, buildings are reported as reduced to ashes. This is also an exaggeration. Nearly all the big business houses are built of stone or granite. They may have been gutted, but they could not have been destroyed. This all means that the task of reconstruction will be easier."

Thinks Damage \$3,000,000,000.
Dealing with the financial aspects of the situation, Baron Watanabe said all estimates of the total damage must necessarily be a matter of conjecture.

"Without further information," he said, "I do not like to name a figure, but at a rough guess the damage may be between \$2,000,000,000 and \$3,000,000,000. My chief interest in Japan has been the building and financing of water and gas systems. It is probable that the entire water and gas systems of Tokyo and Yokohama are entirely destroyed. The mains lay near the water front and were, it seems, scattered in the tidal waves which followed the upheaval, which finished the work of destruction. These cost \$22,000,000 to construct about twenty years ago, and today the loss on that account alone will exceed \$50,000,000."

Three Years to Rebuild.
"There would have been 20,000,000 cubic feet of gas in the Tokyo and Yokohama tanks at the time. The explosions referred to were in all probability from the gas reaching the gas tanks and not from the tanks as reported."

"Reconstruction cannot be accomplished in less than three years. I should judge the Japanese government has sufficient funds to undertake the task by itself. In all probability an appeal will be made for internal loans, followed by external loans. There is no doubt that American capital and brains will be asked to assist in rebuilding the stricken area. It is too formidable a task for Japan to tackle single handed."

'Skyscrapers' Weather Elements.
The Fuller company's buildings reported safe are the Maranouchi building, the Japan Oil company building, and the offices of the Nippon Yusen Kaisha. The former is owned by the Mitsubishi Goshi Kaisha and is in the Maranouchi, or business section of Tokyo. It was the largest of its kind in Asia, covering a plot of 200 by 350 feet and having eight stories, the near-

Temples, Centuries Old, Crumble to Ruin

One of the losses which Japan will doubtless mourn the most is the destruction of famous old temples in which Japanese have worshiped down through many years. This is the Hachiman shrine at Kamakura, famous resort city.

KILAUEA VOLCANO BURSTS FORTH IN NEW ERUPTIONS

HILO, H. I., Sept. 5.—(By the Associated Press.)—Kilauea volcano resumed activity today with molten lava bursting forth with loud reports, according to messages received here late today from Thomas Boles, superintendent of Kilauea National park. The lava, according to the message, was hurled from 100 to 150 feet in the air, and streamed down the sides of the volcano.

Lay Rock Slides to Quake.
Victoria, B. C., Sept. 5.—Rock slides that killed two men in Nanaimo, B. C., last night, may have been due to earth disturbances radiating from the upheaval which caused the destruction of Japanese cities, it is believed by officials of the British Columbia mines, water and gas systems. It is probable that the entire water and gas systems of Tokyo and Yokohama are entirely destroyed. The mains lay near the water front and were, it seems, scattered in the tidal waves which followed the upheaval, which finished the work of destruction. These cost \$22,000,000 to construct about twenty years ago, and today the loss on that account alone will exceed \$50,000,000."

Approach to a Skyscraper in Japan.
The oil company building, a seven-story steel structure, cost \$1,500,000, while the steamship building is eight stories high on a foundation of 100 by 200 feet.

"I am not at all surprised at this news," said James A. Baird, president of the Fuller company. "It is exactly as I predicted, and I now venture to prophesy that at least eighty per cent of American built buildings in the earthquake area have withstood the strain."

Japan's Gold Reserve Large.
Japan has gold balance of approximately \$500,000,000 in the United States and London, according to reliable estimates made today, and a sum of equal size in the Bank of Japan at Tokyo. While the gold in the Bank of Japan is believed to be buried in debris, it is believed the vaults' contents can be saved. Thus, with \$1,000,000,000 in gold on which to draw, it is stated by bankers here that Japan will not be seriously handicapped financially, although property loss resulting from the earthquake will run into the billions.

Fifty-two Chicagoans Safe in Japan; 61 Not Heard From

Out of 113 Chicagoans believed to have been in the earthquake zone in Japan, 24 were known to be safe last night, 23 others were believed to be safe, and 61 were unheard from.

While the list of those known or believed to be safe grew larger, the list of those unheard from did not shorten much. New names were added as old ones were eliminated, and the anxiety of friends and relatives increased as the fifth day following the catastrophe dawned without the word for which they have been waiting.

There was encouragement for the waiting ones during the day, however, when word came from Washington that Ambassador Wood had reported from Tokyo that all Americans there were safe.

Another cheerful message was that received by the American board of foreign missions. "We are quite sure that all our missionaries are safe," it read. Most of the missionaries are said to have been in Karuizawa, which, according to dispatches, was little affected.

Only the Salvation Army had a message of sadness to give out. It stated that reports had reached the Chicago headquarters that Commissioner and Mrs. William Eadie, in command of the Salvation Army forces in Tokyo, had perished in the disaster.

THESE KNOWN TO BE SAFE

Messages announcing the safety of the following Chicagoans have been received:

BELIEVED SAFE

The following Chicagoans, passengers aboard the liner President Madison, which left Yokohama for Shanghai Friday, are believed safe, it being understood they did not quit the steamer at Yokohama to await the next boat:

Chamberlain, Mrs. A. Crozier, Mrs. Corneille.
Crane, Miss May M.
Larson, Miss May M.
Sundland, Miss F.
Graham, Miss Mathilda, of Denver, Ill.
These Chicagoans were last reported in Tokyo, where, according to Ambassador Wood, all Americans are safe.

LE SAYS HE
WILL BE FREED;
SMITH SAYS NOTBoyle's Corpus Heard in
Chicago Today."I'll be a free man tomorrow night,"
said the optimistic prediction made by
Michael J. Boyle, Chicago labor leader,
last night from his cell in the Lake
County Jail at Waukegan.Boyle will be back in jail tomorrow
night, was the prediction made by
A. V. Smith, state's attorney of
Lake County.The predictions were made after
Judge Thomas J. Lynch in the Circuit
court had issued a writ of habeas
corpus for Boyle, returnable in his
court at 10 o'clock this morning.As a result of a conference between
Boyle and his attorney, Timothy J.
Wright, Boyle was hurried over to
the office of L. O. Brockway, Circuit
court clerk of Lake County, and paid
the \$100 fine imposed by Judge Rob-
ert E. Weale, simultaneously with the
dismissal of his sentence for contempt.

Hurry to See Out Writ.

As soon as Boyle had the receipt
for his writ, Attorney Paul and At-
torney O. J. Wray hurried before Judge
Lynch with their petition for a writ.
The petition recites that contempt of
court is not a statutory offense and
that the court erred, therefore, in im-
posing both a fine and a jail sentence.
The attorneys argued that only one
of the two penalties could have been
imposed in this case, and, inasmuch
as Boyle had paid the fine, he was
entitled to his liberty. The petition
also stated that Sheriff Edwin Ab-
raham "probably would disregard any
writ of habeas corpus writ" and asked that
the sheriff of Cook County be directed
to release Boyle and bring him into
court in case of such refusal.The writ, however, was served on
Sheriff Delbert Weale, who is
acting sheriff of Lake County during
Abraham's absence in Nebraska. Weale
was inclined at first to disregard the
writ, contending that a Cook County
writ was without jurisdiction inasmuch
as the "corpus" was in Lake
County.

Smith Asks Writ Heard.

State's Attorney Smith held this
same view, but stated he was so sure
of the futility of the contention of
the defense attorneys that he wanted
the matter brought into court. He
directed Weale to bring Boyle to Chi-
cago this morning and he will come
prepared to argue against the writ.
"I can cite two separate portions
of the code in which a judge is em-
powered both to levy a fine and im-
pose a jail sentence," said Col. Smith.PHONE CO. DENIED
NEW HEARING ON
RATE REDUCTIONA petition for a rehearing on the
recent reduction in phone rates,
amounting to an annual saving of \$1-
00,000 to consumers, was denied by
the Illinois Bell Telephone company in
Chicago and vicinity yesterday by
the Illinois commerce commission at
Springfield.The new rates, which were estab-
lished Aug. 16 after hearings extend-
ing over a period of two years, reduce
the cost of a two party residence
phone from \$2.75 to \$2.50 a month, a
four party residence phone from \$2.75
to \$2.50, a single party business phone
from \$4 to \$3.50 and a two party busi-
ness phone from \$4.50 to \$3.50.
The company probably will appeal
to the court.

the days go by our list of customers from far-off

America. We have seen them all—in New York,
Boston, Philadelphia, Washington, Los Angeles,

STRESEMANN TO ARREST HERMES IN VAST CRAFT

Stinnes Involved in Alleged Huge Swindle.

BY GEORGE SELDES.
[Chicago Tribune Foreign News Service.]
[Copyright: 1933. By The Chicago Tribune.]
BERLIN, Sept. 5.—A sensation was produced in political circles here today when it became known that Chancellor Stresemann has decided to have former Finance Minister Hermes arrested to stand trial on a charge of manipulating one of the biggest financial swindles in the nation's history.

Since taking office Herr Stresemann has often asserted that the world would not believe how much "dirt" was left behind by the former finance minister. For the past two weeks Herr Hilteding, the new finance minister, has been carefully examining Herr Hermes' account. He was shocked by the discoveries, which he immediately reported to the chancellor.

Stinnes Is Involved.
Certain officials believe that when Herr Hermes is brought to trial the nation will learn the truth about Hugo Stinnes, Germany's greatest industrial leader, who was accused of being largely responsible for the collapse of German finances while he profited millions of dollars.

One of the most sensational charges against the old finance ministry is that it permitted industrialists like Herr Stinnes and others to draw billions of paper marks from the reichsbank at a small rate of discount, which they repaid when the mark depreciated to a fraction of its value, thereby profiting enormously.

His Wine List.
A year ago Herr Hermes sued for libel newspapers which accused him of graft in connection with receiving thousands of bottles of wine for a price of a few cents a bottle. Herr Hermes asserted that the wine growers made the price as propaganda for good wine, but he has remained in bad odor since.

It is stated that former Chancellor Cuno's collapse was due mostly to Herr Hermes' bungling of the finances, and the forthcoming trial is expected to be the biggest graft case in Germany's political history.

STEEL COMPANY OFFICIALS TAKE UP PAY CHANGES
New York, Sept. 5.—[By the Associated Press.]—Elbert H. Gary, chairman of the United States Steel corporation, announced late today that his concern was conferring with heads of subsidiary companies on adjustment of wage rates. He declined to indicate whether upward or downward revision was contemplated, or whether the adjustment had any bearing on the elimination of the twelve hour day from the industry.

"We have been meeting today with our presidents on adjustments of wage rates," said Mr. Gary. "Of course, there are a great number of questions to consider. We have nothing whatever to publish about it, because readjustment is going on satisfactorily without any serious friction."

From other sources it was learned that today's discussion concerned the wages of men whose hours were reduced from twelve to ten. When elimination of the twelve hour day was begun it affected 90,000 men in all, but a good number had their hours reduced from twelve to eight and received a 25 per cent wage increase.

CONFISCATE WINE ON FRENCH SHIPS; HOLD 3 STEWARDS

New York, Sept. 5.—[Special.]—Six hundred bottles of choice champagne, Scotch, Benedictine, wine, and other beverages were seized last night from two French liners, the Chicago and La Savole, by United States customs guards, according to an announcement made today at the office of Deputy Surveyor of the Port W. Trumble.

Besides confiscating the liquor the guards took three stewards of the French line into custody. The French line disclaimed responsibility. The French line, while within the three mile limit here, is supposed to have no liquor on its ships except such as is under seal for medicinal purposes. Recently there was a raid on the French liner France.

Wife Must Pay Alimony; 'Marriage 50-50,' Is Ruling

Los Angeles, Cal., Sept. 5.—"Marriage is fifty-fifty," said Judge John W. Summerfield today in ordering Mrs. Mary Scranton to pay her husband, Charles Scranton, \$5 a week as temporary alimony, pending trial of his suit for separate maintenance. Scranton testified his wife, who earns \$150 a month in a bank, deserted him. He said he was ill and unable to work.

WORKERS BACK IN RUHR MINES WITH 6 HOUR DAY

BY THOMAS RYAN.

[Chicago Tribune Foreign News Service.]
[Copyright: 1933. By The Chicago Tribune.]
ESSEN, Sept. 5.—All the mines in Essen, except the Hagenbeck, are working today, and already the city gas supply has been resumed. Nearly all the Ruhr mines are now in operation. The old workmen returned to the pits today as a result of the employers' fair offers upon their understanding with the French.

The miners went back to the German mine owners, instead of the French, because the latter demand eight hours' work underground and ten above for a hundred per cent increase in pay. The Germans offer six hours' work below and eight above. The question of hours counts a great deal more with the men than wages.

For Local Needs.

The mines will only turn out enough coal for local consumption, providing the French permit transportation, according to the announcement.

The settlement between the men and employers was achieved by direct parleys. The strong feeling in the Ruhr in favor of a German commercial rapprochement with France naturally is directed against English trade. This

Red Riots in Essen.

Essen was the scene of communist riots today. Fearing a general outbreak the French troops were heavily reinforced after a communist announcement that a general revolt would follow any negotiations between German and international capitalists. The two ringleaders of the communist organization addressed the 2,000

men at the Hagenbeck mines who were badly handled yesterday by the German blue police. The men first tried to attack the town hall to get unemployment doles. They succeeded in getting possession of the bureau, holding it for an hour, but were finally ejected.

Success

¶ Man is a "poor worm" or "God's noblest work"; all depending upon one's viewpoint.

☆☆☆

¶ And "success" is interpreted with countless variations. Even if it be conceded that so inane a thing as grabbing and keeping is success, what frightful failures are those who, accepting that standard, have been able to filch and hold only a moderately large fortune as compared to the leaders in finance and industry!

☆☆☆

¶ But whatever standard of success may be accepted, its attainment is largely, if not chiefly, a matter of price. What are you willing to pay for your accepted measure of success?

☆☆☆

¶ In the cash box of the keeper of the portals to success are the consciences of some men, the honor of others, the happiness of many—some of it rightfully belonging to others than those who pledged it—kindliness and charity, family affection and a rich treasure in other things with which no man should part.

☆☆☆

¶ But of this you may be assured: In the attainment of any standard of success—physical and mental—is an aid of first importance and to be and keep fit one must constantly be watchful as to what, when, and—chiefly—where he eats.

\$500 Reward for Vampire
Offered by Coroner.

Three motorists were sentenced to jail, a \$500 reward was offered for the capture of a fourth, and a woman girl going home from her first day back at school, were killed in an automobile accident yesterday.

YOUNG BUSLESKI, 13 years old, 1825 West North avenue, was killed when she and her brother, Frank, 6 years old, were struck by a yellow taxicab, driven by Leonard Petersen, 1425 West North avenue, on the corner of North and Clark streets.

The boy was not seriously injured, but later died in the street. Petersen was held by police pending an inquest today.

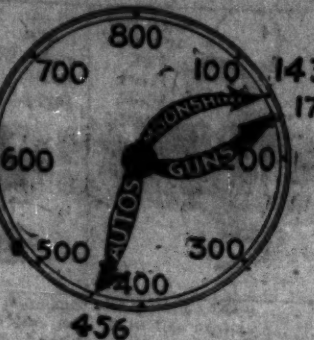

Arthur Toohy, 46 years old, of 61 South 8th avenue, Maywood, was killed when his automobile overturned as he turned a corner in Schiller park. His death and that of the Busleski girl raised the total number of motor fatalities in Cook county since Jan. 1 to 456.

An unidentified woman was killed and Jesse Johnson, colored, 518 East 56th street, was probably fatally hurt last night when Joseph C. Littinello of 806 South Wabash avenue, drove an automobile through a crowd of persons alighting from a street car at 51st street and Cottage Grove avenue.

Reward for Speed Killer.
The \$500 reward was offered by Coroner Wolf from his personal funds for information leading to the arrest and conviction of the vampire motorist who drove the automobile that fatally injured Mrs. Mary Belle Silverman of 617 West 14th street, an aunt of one of the coroner's aids. Mrs. Silverman was struck down at Michigan boulevard and 57th street and died in the Washington Park hospital on Sept. 1.

Witnesses testified he had driven his automobile into a crowd boarding and leaving a street car at Fullerton and Cleary avenues on Aug. 15. A boy, Henry Martin, of 2332 North Harding avenue, was injured.

Lieut. Wald, in uniform, entered a motion, through his lawyer, to vacate the judgment. Judge Gentzel said he would hear the motion this morning. Wald's attorney said he would appeal the case.

Falls Drunken Drivers.
Judge John F. Hines sent two intoxicated drivers to the jail and imposed heavy fines on speeders. Anton Garcia, 281 West 33d street, was sent up for sixty days and fined \$50 and costs. He drove his car into a fire plug, police testified, and attempted to throw away a bottle of liquor in his possession.

CURRAN, 3 OTHERS FELL GUARD AND FLEE DETENTION

Beat and Kick Attendant,
Seize Keys, Escape.

Charles Curran, son of State Representative Thomas Curran of 2023 South Racine avenue, and three other prisoners escaped from the Juvenile Detention home yesterday after they had overpowered John Danos, a guard, gained possession of his keys, and unlocked a rear door.

Young Curran, whose father is one of the small leaders in the legislature and dispenser of patronage for the west park board, is charged with having figured in a number of gun battles, holdups, and automobile thefts. At the time of his arrest he was waiting to be transferred to the reformatory at St. Charles, where prisoners are not kept under lock for robbery.

Four Leap on Guard.
He had just returned from lunch and he and a number of other boys were in the recreation room when the guard was attacked. Curran, Max Singer, whose address is unknown; Anton Andziewitz, 1007 North Rich-

mond street, and a young Negro, Fred Lewis, 1753 West Lake street, leaped upon Danos, threw him to the floor, pummeled and kicked him, and twisted the keys from his grasp.

Miss Blanche Pyne, superintendent of the home, attempted to throw away the keys, but they were recovered around the escape, refusing to give the name of the guard who was attacked, but his identity was ascertained by the Maxwell street police, who are searching for the fugitives.

Young Curran was up before Judge Charles F. Walker in the Boys' court in June on charges of disorderly conduct and taking a car without consent of the owner. He was granted a jury trial on the plea of his attorney that "it was a frameup on the part of his father's political enemies."

Next Chapter, Gun Fight.
On July 12 Curran was again arrested when he and three companions started a gun fight with the police and was trapped with two of his accomplices in a blind alley back of the Surf hotel, at 519 Surf street. Policeman Thomas Hayes was shot in the left leg and a bullet grazed the right cheek of Sergeant Hughes during the battle.

In little more than an hour, it is charged, the four had stolen a car after turning a man and his wife out of the machine at Huron street and Lake Shore drive, and in rapid succession had held up six men and one woman when the police took up the chase. One of Curran's companions, shot in the arm, gave the name of James Stover, 923 West 20th street. A third prisoner gave the name of James Skoda, 1438 South Racine avenue. The fourth, escaped.

The robbery for which Curran was awaiting a trip to St. Charles was that of William Brunhauer, 2708 Archer avenue, who was held up on the night of Aug. 5 at Archer avenue and Halsted street and robbed of \$600.

CASH HOLDINGS OF FORD SURPASS ALL WORLD MARKS

New York, Sept. 5.—[Special.]—The Ford Motor company, on June 30 had a total cash balance of \$216,291,922, assuming the good will item unchanged at \$20,517,988, according to a compilation made public today by Dow, Jones & Co. This is the largest sum ever publicly disclosed by the Detroit motor concern and is the largest cash holding ever reported by any industrial concern in the world.

The minimum profits indicated for the four months ended June 30 by a comparison of profit and loss surplus of the company's June 30 report, and with a more detailed report filed in Massachusetts, were \$54,281,560.

Allowing for moderate depreciation, earnings on the Ford capitalization of 172,645 shares of stock are now placed in "the four figure class."

All these profits accrue to the Ford family, in which the entire ownership of the company is vested.

CROWE FINDS WAY TO TRY CITY HALL GRAFTING CASES

Agrees to Finance Trials Through His Office.

Prosecution of city hall graft indictments is not to lapse for lack of funds, says Attorney Crowe yesterday.

The agreement was reached at a meeting between Mr. Crowe and Assistant Attorney General Frederick A. Brown and Fletcher Dobyns. Mr. Crowe was informed that the attorney general's office is without funds to carry on the prosecutions. It was then decided that Mr. Dobyns should be paid as the state's attorney's pay and as an assistant and that Mr. Brown should aid him. They said they will have the cases ready for trial within a short time.

Dismiss School Graft Cases.

While this conference was in progress the remaining indictments voted by the special grand jury in the school grafting cases were dismissed on order of Attorney General Brundage. These were voted in the same investigation as those against Fred Landon and other Landon-Thompson leaders who were acquitted, and on evidence involving the same transactions.

Assistant Attorney General R. E. Brundage told Judges Pam and Lewis that Mr. Brundage's office had no money to carry on trials, and on his motion the order to dismiss the cases was entered.

These Bills Dismissed.

Among the indictments made promulgated by the special grand jury were those charging six school engineers with collecting the famous "teapot funds" and another charged Dr. Sadie Day Blair and Mrs. Pauline Struwing, former school board members, with embezzlement.

Others whose indictments were dismissed are:

Victor E. McDonald, Fred W. Sadler, J. L. Kitchcock, Charles Ward, Fred L. Krueger, E. L. Omligher, C. J. Fensberg, J. J. Hickey, David S. Davis, J. C. Michaels, H. G. Severinghaus, Wade Curry, J. P. Agnew, John F. Harney, John Campbell, Frank Martin, A. H. Severinghaus, William A. Riber, Joseph O'Leary, Andrew Metzger, T. J. Fitzgerald, David Walsh, Joseph Rock, Patrick Mayhew.

Yesterday's action leaves but one case growing out of the school scandal on the docket. That is a perjury charge against Milton G. Severinghaus, nephew of Albert H. Severinghaus, former vice president of the school board. Severinghaus was charged with threatening grand jurors and was sentenced to ninety days in jail. When he denied under oath that he made the threats he was indicted for perjury.

The whole article, to any one who knows Mexican politics, is largely nonsense, manufactured for gossip and speculation. The reference to me as a "bitter enemy of the United States" is without the slightest evidence to support it. In any serious article it would constitute a serious offense. I have been an inspector of English language in the public schools of Mexico City, and am the Mexico City correspondent of the Federated Press. My chief interest is in the Mexican labor movement and its relation to that movement in this country. There are in all countries those who interpret our interest in labor as hostility to our country, to labor as a "country" and the "bitter enemy of the United States" are as often confused as one and the same. Your correspondent obviously fell into that error.

I should not call attention to this statement of myself in an article as highly speculative except in the interest of the movements which I am serving. P. W. LAMARCA.

BRITAIN PUTS ITS FLEET AT LEAGUE ORDER

Mussolini Calms as Little Nations Rise.

(Continued from first page.)

standing action, Lord Robert Cecil attempted to intimidate France by the declaration that the whole fabric of the Versailles, St. Germain, Trianon and Neuilly treaties depends on the enforcement of the covenant of the league of nations regarding territorial safeguards, adding:

"If these terms are disregarded, then the whole work of settlement of new Europe is shaken."

The audience crowding the room, formerly the sun parlor of a tourist hotel facing Lake Geneva, made up mainly of American travelers, here broke into applause, but they were speedily crowded down by the august body.

Lord Robert, sending a baleful glare to the nearest handclappers and attendants bustling about, threatened to eject anybody that gave way to his emotions.

The outburst failed to impress M. Hanotaux of France who maintained a sphinxlike silence without opening his mouth once during the entire session.

Swedish Premier Silent.

Dr. Branting, the Swedish firebrand who is hailed as the champion of the little peoples and who is looked to to break up the league unless justice is done, was silent throughout. He made no move when Viscount Ishii of Japan, president of the council, suggested to adjourn further discussion according to the time honored formula, "until the council has additional information," meaning until it is advised of the results of the session of the council of ambassadors which was convened this morning in Paris.

Lord Robert objected to the postponement, saying that the council that the assembly is due to meet tomorrow, when the council will be asked to inform them what has been done. He intimated that the assembly might interfere and take the matter in its own hands as the covenant provides if it becomes suspicious that the council is stalling.

"We had better meet tomorrow morning to see if there are any developments so that we can assure the assembly that we are considering the matter and to urge them to adjourn discussion until the next day," he said. This was agreed to.

Faction of Greece.

M. Politis, the Greek plenipotentiary, outlined the situation tonight to the assembly, asserting that his government is willing to have the conference of ambassadors examine the question of responsibility for the assassinations of the Italian frontier mission and to fix the indemnity for their murder, but he pointed out that, since Greece is not represented in the ambassadors' conference it could not admit of this body dealing with the question of the military seizure of Corfu which directly violates the covenant of the league of nations.

"If the league fails to deal with this case, it sounds its own death knell," M. Politis said. He added that Greece will not pay the cost of the military operations connected with the occupation of Corfu.

opinion will be brought out in the discussion on the assembly floor, if the council attempts to stifle the affair, even though the debate disrupts the league.

Pressure on France.

The Tribune learns that the little entente delegates are exerting extreme pressure on M. Poincare in Paris and M. Hanotaux here to abandon their support of Italy's refusal to permit the matter to go to the league, as, if Sig. Mussolini refuses to evacuate Corfu in the near future, Jugo-Slavia is bound to interfere, as it cannot accept Rome's control of the Adriatic, which will make it an Italian lake.

M. Nictich, the Jugo-Slav foreign minister, told the Tribune that Belgrade is anxious to preserve peace, but it cannot envisage the possibility of Italy remaining permanently in possession of Corfu. He pointed out that control of the Adriatic would greatly increase Italy's influence in the Mediterranean, asserting that the big powers are vitally interested in the maintenance of the balance of power in the Mediterranean.

M. Nictich believes that the little entente and the central European states affected need not worry as Great Britain and France, must see that the status-quo ante is revived eventually.

League at Stake.

The little entente delegates and the French delegation held a private meeting at the Hotel Metropole here to-

night. It is understood that the little entente wants France, if possible, to avoid a breakup of the league, which is scheduled if the Italo-Greek row is not handled here, and that they point out the necessity of the council doing everything possible to ameliorate the situation before more serious consequences develop.

M. Hanotaux, the French delegate, promised to confer with Premier Poincare on the matter.

The life or death of the league is openly discussed among the delegates, even among the paid secretaries, tonight. Every one believes that the league faces a vital issue.

JUGOSLAVIA WARNS FRANCE

BY VINCENT SHEEHAN.

(Chicago Tribune Foreign News Service.)

(Copyright: 1923: By The Chicago Tribune.)

PARIS, Sept. 5.—Further support of what they call Italy's imperialism by Premier Poincare will result in a definite separation of the little entente powers from France and may throw Jugo-Slavia into direct action with Greece against Italy.

This solemn warning, in so many words, was delivered to M. Poincare this afternoon by Premier Pachich of Jugo-Slavia who called at Quai d'Orsay at 3 o'clock.

The Tribune learns from a high Jugo-Slav authority here that the Serb premier did not mince words in demanding that France support the

league of nations or any other nation tending to bring Premier Mussolini, to terms on the Corfu occupation.

Premier Pachich also pointed out that the direct result of M. Poincare's support of Sig. Mussolini has been to rally the little entente around England, instead of France, during the last three days at Geneva and elsewhere.

The Tribune's informant stated:

"Ambassadors in London.

The conference of ambassadors met at 11:15 this morning under the presidency of Jules Cambon, M. Poincare's delegate. Sheldon Whitehouse represented the United States; Lord Crewe, England; Baron Avenna, Italy, and Counsellor Sato, Japan.

The first decision was forced by French pressure—the definite recognition of Greece as entirely responsible morally, financially, and politically for assassinations committed on its soil.

Lord Crewe made tentative objections here, but the precedent was too strong, and he was overruled.

Bars Out Corfu.

M. Poincare's second point also was carried—the occupation of Corfu was not discussed and shall not be discussed during the deliberations of the allies.

The conference then decided to pro-

ceed with the appointment of an investigating committee to regulate the whole affairs of the reparations which Greece must pay, not mentioning Corfu further.

At 1 o'clock the conference broke up with the decision to meet again on Friday.

M. Poincare has thus molded the conference of ambassadors to his will, but the news from Geneva is stormier and stormier. French official circles doubt tonight if France can carry its point and leave the whole affair up to the conference here.

JUGO-SLAVIA AND GREECE

(Chicago Tribune Foreign News Service.)

(Copyright: 1923: By The Chicago Tribune.)

BEIGRADE, Sept. 5.—(Tribune Radio.)—After a cabinet meeting which ended last night, the Tribune obtained a statement of the Jugo-Slav policy from one of the highest officials now present in Belgrade.

That policy may be summed up as follows:

"The Jugo-Slav policy with regard

to Italy is one of watchful waiting, but this cannot last long. It is a question of days now until Italy must make its position clear with regard to Corfu and Fiume. The government last night considered in great detail the situation occupied by the Italian occupation of Corfu which betrays up the Adriatic and completely interferes with Jugo-Slavia's commerce which is as essential to us as the commerce of England or America.

In Italian Grip.

"The Italian position on both sides of the Adriatic is manifestly a menace to Jugo-Slavia's existence. We cannot be stifled in the Italian grip."

"Under these circumstances we must seriously envisage the possibility of a grave conflict in the immediate future. Jugo-Slavia intends to do everything humanly possible to avert such a conflict which would plunge the Balkans and perhaps all Europe into disaster."

"Greece has asked us for aid. On this the government makes an express reservation of the right to aid Greece at any moment it seems necessary. It depends on Italy how near that moment is."

Jugo-Slavia to Reject Demands.

(Chicago Tribune Foreign News Service.)

VIENNA, Sept. 5.—The opinion in

prevalent in Vienna that the Finns question presents a greater danger than the Italo-Greek conflict. The latest news from Belgrade states that Jugo-Slavia will refuse to accept the Italian demands long before the time limit of Italy's ultimatum on Sept. 16, as acceptance of these demands, in the eyes of Jugo-Slavia, would amount to nothing less than annexation of Fiume by Italy. Nevertheless rumors of Jugo-Slav military preparations remain unconfirmed.

A Public Service and Its Scope

THE Public Service Company of Northern Illinois now serves a territory of 6,000 square miles, including 180 cities, towns and smaller communities in 15 of the most productive counties of Illinois, adjacent to Chicago.

The area for which the Company provides electric light and power and gas service is greater than that of the states of Connecticut and Rhode Island combined. Practically all of the more than 15,000 stockholders live in the Company's territory and are its customers.

The Company has a total of 220,202 electric and gas customers, and last year to satisfy their needs produced 366,843,534 kilowatt hours of electricity and 3,087,378,000 cubic feet of gas. The increase in customers last year—20,938—was the equivalent of the number of families usually found in a city of 100,000 population.

To the North of Chicago the Company serves Waukegan and the manufacturing center around it and the fine residential district between Evanston and the Wisconsin state line. West of Chicago, the Company serves the important cities and towns of Oak Park, River Forest, La Grange, Maywood, Elmhurst, Melrose Park, Berwyn and the industrial communities of Cicero, Argo and Summit where vast amounts of power and heat are necessary.

On the south the industrial centers of Blue Island, Harvey and Chicago Heights demand a constantly increasing service, particularly for their large manufacturing plants. Farther to the southwest and south, the Company serves cities of Joliet, Kankakee, Pontiac, Streator, Ottawa and Morris.

The Public Service Company furnishes services of a nature so essential to the residential, industrial and agricultural development of this territory, that the prosperity and future growth of Northern Illinois and the Company are inter-dependent.

MAIN FIRM HERE MCCRAY'S TROUBLES CAUSE

Sawers Assets Declared to Exceed Claims.

The Sawers Grain company of Chicago, a private corporation, of which James T. McCray of Indiana was president, suspended business operations at 2 o'clock yesterday, Sept. 5, 1923, at its headquarters, 3000 Landale-ave., Chicago, Ill., where it had been operating since 1912.

The company, which had a net worth of \$1,000,000, was reported to have been in financial difficulties under which it had been operating for some time. A creditors' committee was organized and the statement made that the assets were \$200,000 ahead of liabilities.

The collapse is the indirect result of the financial difficulties under which the company had been operating for some time. It had only a small income and had nothing to show for the government's fortune caused by the war and others to call for extra money with the Chicago concern.

Customers withdrew business. The firm was too much overextended and credit was refused.

Creditors Meet Monday.

A meeting of the grain company's creditors is set for next Monday. The committee appointed by President McCray of the Board of Trade of Chicago, James T. McCray, of Chicago, and James T. McCray, of Chicago, are expected to meet at 2 o'clock on Monday, Sept. 10, at the headquarters of the company, 3000 Landale-ave., Chicago, Ill.

The committee will consider the assets of the company, which are reported to be \$200,000 ahead of liabilities. The committee will also consider the claims of the creditors, which are reported to be \$1,000,000.

The committee will also consider the claims of the creditors, which are reported to be \$1,000,000. The committee will also consider the claims of the creditors, which are reported to be \$1,000,000.

DEMPSEY FIGHT FILMS HERE ARE GRABBED BY U. S.

Prison for Importer, Olson's Threat.

Efforts to allow the Dempsey-Gibbons fight films in Chicago came to an end last night when United States Marshal Robert R. Levy, armed with subpoenas, walked into the Rose theater at 83 West Madison street and confiscated the films.

Declaring he would not allow a mockery to be made of the federal law, District Attorney Edwin A. Olson announced his intention of prosecuting every one connected with the attempt to show the films here, and said he would insist on a prison sentence for James J. McGrath, charged with transporting the films from Montana.

Assistant District Attorney Edwin L. Wolf was assigned to push the prosecution of McGrath and six others. Jack Dempsey and his manager, Jack Kearns, were not implicated in the exhibition of the films and no action against them is contemplated.

Plans were made to act earlier in the day, but the seizure was not made until night, in order to allow the owners of the theater, who is not held, to make arrangements for another picture. The fight films will be impounded until the trial of McGrath.

Mr. Wolf stated that the action of the federal authorities was not taken in violation of the injunction restraining the police from interfering with the exhibition of the pictures. He pointed out that only city and county officials were restrained from interfering, and that Judge Fisher had no jurisdiction over federal authorities.

REBEL ALDERMEN SEE LIGHT AFTER BRENNAN TALKS

Mayor Dever, George E. Brennan, Democratic Leader and City Controller Martin J. O'Brien, Chairman of the Democratic County Committee, Yesterday "Rode Hard" Over Recalcitrant Members of the Council Finance Com- mittee, Who on Tuesday Balked at the Mayor's Request for \$35,000 to Conduct an Efficiency Survey.

When the dust cleared away, twelve of the sixteen members of the committee, who followed each other into the mayor's office had been converted. Another meeting of the committee is scheduled for this morning at which it is believed the employment of E. O. Griffenhagen and associates under direction of Controller O'Brien will be almost unanimously approved. Only prompt action of Ald. Rose Woodhull, chairman of the committee, when he adjourned Tuesday's meeting without a vote, saved the scheme from defeat.

Find Money Already Voted.

Aldermen who opposed a survey under auspices other than the committee staff, as a "waste of money" were told that the 1923 budget included \$20,000 for investigations by the finance committee and that they were asked only to transfer this fund with an additional \$5,000 to Controller O'Brien. Others who complained recently about apportionment of patronage to aldermen protested that any savings effected must necessarily be made in the sacrifice of some of the few jobs now at their disposal.

"Useless jobs must go," answered the mayor.

WOMEN, CAFES, GAY LIFE; \$4,000 Shortage; Warrant

"I am married, but I wanted to lead the gay life. Women and cabarets got it all." So Jerome J. Erna, 1911 South Springfield avenue, last night ex- plained a shortage of \$4,000 in his ac- counts as bookkeeper for the Ameri- can Auto Underwriters, 208 West Jack- son boulevard.

A warrant charging embezzlement was obtained in July by Eugene B. Mettles, manager of the concern.

On two other occasions Mr. Brennan and Controller O'Brien have added Mayor Dever in quelling aldermanic revolt. With their aid the council was persuaded to accept Ald. Woodhull as chairman of the finance committee and again they intervened when the council refused to affirm the mayor's appointments to the newly created zoning board of appeals last July.

BIG ENROLLMENT CONTINUES AT HIGH SCHOOLS

High school registration continued yesterday, with large enrollments in every school in the city. Approximate figures for several of the larger schools last night were: Lane, 1,000; Lind- blom, 1,100; Englewood, 1,200; Austin, 1,300; Benn, 1,400; Harrison, 1,500; Hyde Park, 1,600, and Lake View, 1,700. In all of these schools the "ex- tended day" plan will be put into effect to counteract the shortage of seats.

Pupils apparently are not greatly upset by the new system, according to Superintendent Peter A. Mortenson.

"We have had practically no calls from the schools," he said, "which indicates there has been little trouble in taking care of the children."

Free evening schools, both elementary and high, will open on Sept. 17, it was announced by Assistant Superintendent Morgan G. Hogge. A total of twenty-nine schools will have evening study.

What five years have proved

Five years ago the first Nokol was installed. It created a new industry, that of Automatic Oil Heating for Homes. Today Nokol is a nation-wide institution. There are more than 12,000 Nokols in use, in 46 states and 6 foreign countries. In nearly every large city in the United States a well-organized Nokol service has been established.

This phenomenal growth is the proof of Nokol's success. It is the result of Nokol service to its owners. It has added undreamed of comfort to the home. Nokol has given its owners, for more than five years, clean, even, automatic, reliable, healthful heat. For the dirt and drudgery of coal it has substituted a heating service as dependable and convenient as electric lighting, cleaner than gas, at less than the cost of coal.

Come in and see Nokol in operation.

The Nokol Automatic Oil Heater burns oil instead of coal in your present furnace or boiler. It can be installed in a few hours' time, without alterations. Controlled by a thermostat, it is entirely automatic in operation, and keeps your home at exactly the temperature you like, at all times, no matter what the outside weather may be. Nokol burns without soot, smoke or ashes, and burns fuel only when heat is needed.

A Model of Proved Acceptability Among Carefully Groomed College and University Men

\$50 and up

A THREE-BUTTON SACK SUIT the style of which is founded on the expressed preferences of college and university men, particularly those of Eastern affiliations. Somewhat conservative, it adheres to certain definite ideas of drape and looseness these men insist upon.

The Coat has rather straight lines, with broad shoulders but no waistline to speak of. The Vest is a five-button model with pointed corners. The Trousers are full in the legs to insure the new, correct, straight-hanging effect.

BOMBING PLANES DESTROY TWO OLD U. S. BATTLESHIPS

On Board Army Transport St. Michel off Hatteras, via Army Plane to Langley Field, Sept. 5.—[Special].—More spots "that will be heard around the world" were first off Cape Hatteras when the army air service successfully attacked the obsolete battleships New Jersey and Virginia with Martin bombing planes under orders to sink the vessels.

"The Virginia was sunk in an attack with 1,100 pound bombs in less than half an hour, the New Jersey, although attacked first as early as 8:30 o'clock in the morning, was not sunk until the third attack at 3:30 p.m."

Brig. Gen. William Mitchell, known as the "daredevil" of army aviation and who is assistant chief of the air division, had complete charge of today's bombing attacks. He led three Martin bombers in the last attack on the New Jersey. Although the New Jersey remained afloat for hours it was, in military terms, "put out of action" without a doubt.

"Attack Virginia at 3,000 Feet."

The early attacks on the Virginia and New Jersey today were distinctly different. The Virginia was sunk with bombs dropped from an elevation of only 3,000 feet. The German battleship Ostfriesland in 1921 was attacked and sunk from the same elevation. But the New Jersey was first attacked from a height of 10,000 feet—nearly two miles.

No warship has ever been attacked before from such a height. Gen. Pershing and Gen. Patrick ordered the attacks from higher levels today because army airmen had insisted that they could do so well from 5,000, 8,000 or

10,000 feet. Gen. Mitchell and his advisers even contend they can, with heavy bombs, hit and sink warships from an elevation of 10,000 feet.

Drop 2,000 Pound Bombs.

The attack on the New Jersey from the 10,000 foot level was made by five Martin bombers commanded by Lieut. C. B. Austin, who dropped bombs weighing only 400 pounds. The second attack today on the New Jersey was made by eight Martin bombers commanded by Capt. L. L. Harvey, whose planes operated from a level of 5,000 feet and used 2,000 pound bombs. Each plane carried one bomb of this size. After his flight of eight planes had dropped their eight bombs, two reserve Martin bombers each dropped a 2,000 pound bomb at the New Jersey, but the attack on the Virginia was followed at lower levels of only 3,000 feet and with 1,100 pound bombs.

A spectacular chemical demonstration in which smoke screens were drawn by airplanes preceded the attacks.

LIBERTY BONDS WAR AFTERMATH IS DEATH BATTLE

Harbor Springs, Mich., Sept. 5.—[Special].—Sheriff Will H. Purple was killed and Joseph Grosskopf, Emmett county farmer, fatally wounded today when the former attempted to serve a summons on the farmer to appear in court in Petoskey. Grosskopf had failed to answer a previous summons. Grosskopf refused today to accompany the sheriff when the latter appeared. Instead he went into the house and secured a shotgun.

There was no witness to the shooting which occurred, but when others arrived on the scene the sheriff's revolver was empty and he had received two loads from the shotgun, the first one entering below the heart and the second one nearly taking off the top of his head.

Deputy Sheriff Henry Barker found

the sheriff dead. Grosskopf died a few hours later.

Grosskopf's summons to court was in response to his signature on a note, it being charged that he had transferred his property to his wife.

During the war Grosskopf got into local disfavor over the sale of Liberty bonds. It is said his victim today was on a committed which called on him at that time.

Clean Men

Men who enjoy cleaning up as a boy enjoys a swim

Protects Health—Beautifies Skin

THE best part of the world's work must be done by men who are big and men who are clean.

Take the railroad engineers—Nothing could be more useful than the work they do; few men carry so much responsibility.

If you ever knew a locomotive engineer you know how he enjoyed being clean—how he loved the luxury of washing. He never felt safe until he felt clean.

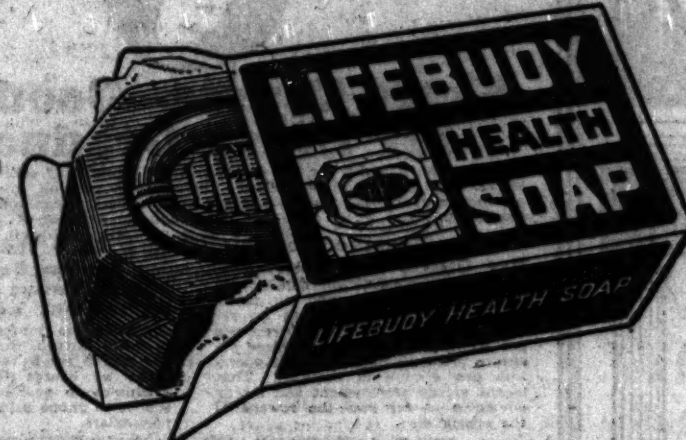

Lifeguard Health Soap is a great favor-

ite with railroad men and their families. They find that Lifeguard not only cleans deeper and better—it also destroys invisible germs. Then, too, it is a soap that can be used frequently and generously on tender skin. It heals and soothes, and destroys the least trace of skin odor.

It is because of Lifeguard's antiseptic properties that this soap is regarded as a great aid to family health.

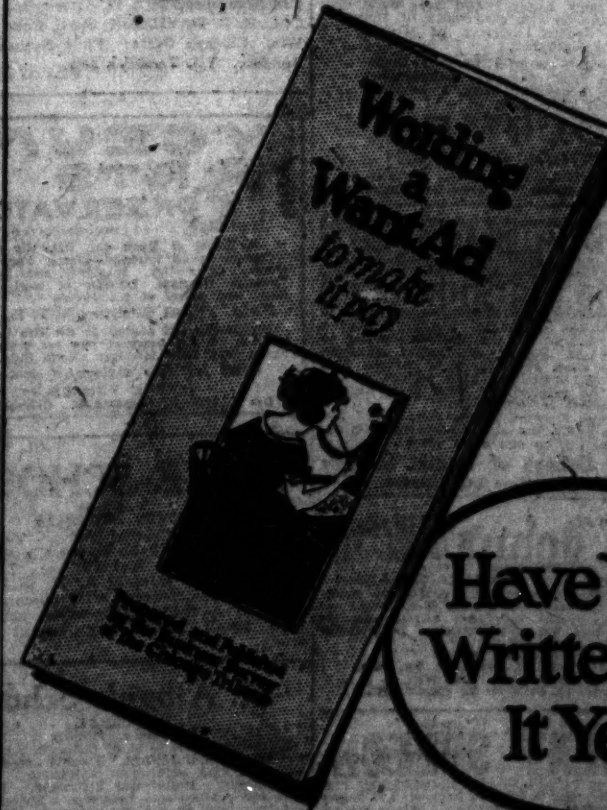

The copious Lifeguard lather releases a wonderful substance which removes all dangerous germ life that lodges on the skin. You can smell this antiseptic—a cleanly, wholesome odor which vanishes almost instantly.

Lifeguard is absolutely pure—its bland oils of palm fruit and coconut are soothing and keep the skin in splendid condition. Lever Bros. Co., Cambridge, Mass.

Mothers—be sure that a cake of Lifeguard is ready when your husband and children come home from work or play. One they know it, no other soap satisfies. It costs little—yet its health protection is priceless.

We Have a Copy of The Tribune's New Free Book For You

A FULFILLER of human wants and a mighty power in the land is the little Want Ad, rightly used. Whatever your desire is—a home, a car, a business, communication with a lost relative—it is possible through a Tribune Want Ad. The Tribune Want Ad Section brings millions of people to common basis of communication at insignificant expense.

Although the vast majority of Want Ads run in The Tribune do pull results—are wonderfully productive in inquiries, sometimes, through faulty wording, a Want Ad does not produce the results of which it is capable. To eliminate even this small percentage of poor Want Ads The Tribune has written this compendium of Want Ad information—"Wording of a Want Ad to Make It Pay." It is free to anyone who asks for it, but the edition is limited. Fill out the coupon, mail it in and accept this book with The Tribune's compliments.

The New York Times.

NEW YORK, Sept. 5.—(Special.)—The abrupt recovery which occurred on the stock exchange today and which, after some initial hesitation, more than cancelled the preceding day's decline in many active stocks, reflected plainly enough the belief that Tuesday's market had exaggerated the immediate economic consequences of the Japanese disaster.

Today's advance in prices did not represent important buying, any more than Tuesday's decline reflected important selling. On both days the transactions, which were not large, were the work of professional speculators. But the essential point is that the decline failed to cause any apprehensive selling by real investors, who showed not only in the stock market but in that part of the bond market which had been most adversely affected by the day before.

There was a 2 point recovery in city of Tokyo bonds, some of the national Japanese loans recovered, and the decline in high grade securities at London ceased. According to reliable bankers, no matter how serious the damage done by the earthquake, Japan's credit standing has not been affected. Considerable talk was heard today regarding a new loan to the empire running into millions of dollars for reconstruction work. The day's net advances on our stock exchange ranged between 1 and 3 points in a long list of shares.

Staring Declines.
On the early market the decline in starting exchange went further, at one time carrying the rate down 1½ cents to 54½¢, the lowest since last November and 22 cents under the highest of the present year. Before the close of business, however, even starting had recovered in line with other markets; it closed at a fractional advance for the day. Other European exchange rates were inclined to weaken, possibly reflecting the Italian situation. The distinct intimations which came by today's cable of an impending effort by Germany to settle the Ruhr dispute by direct negotiation with France seemed to have no effect on exchange rates.

The German mark in particular declined more than one-half in value during the day, reaching a price at which the dollar will purchase 80,000,000 marks, whereas 12,500,000 was the highest figure until this week and 1,500,000 the highest last month.

VICTIM OF QUAKE. Princess Yoshiko is reported to have been killed in fire which followed earthquake at Tokyo. (Story on page one.)

HOW JAPAN ESCAPED QUAKE DAMAGE IN THE PAST. This is an illustration of the peculiar type of building construction, familiar in Japan. One of the reasons for the great loss last week was that Japan recently abandoned this architecture for modern steel construction. (Photo courtesy Cook Travel Service.)

THEY KEPT JAPAN IN CHEWING GUM. These men formed the staff of the Wrigley concern in the East. No word has been received and William Wrigley Jr. has asked government aid in finding them.

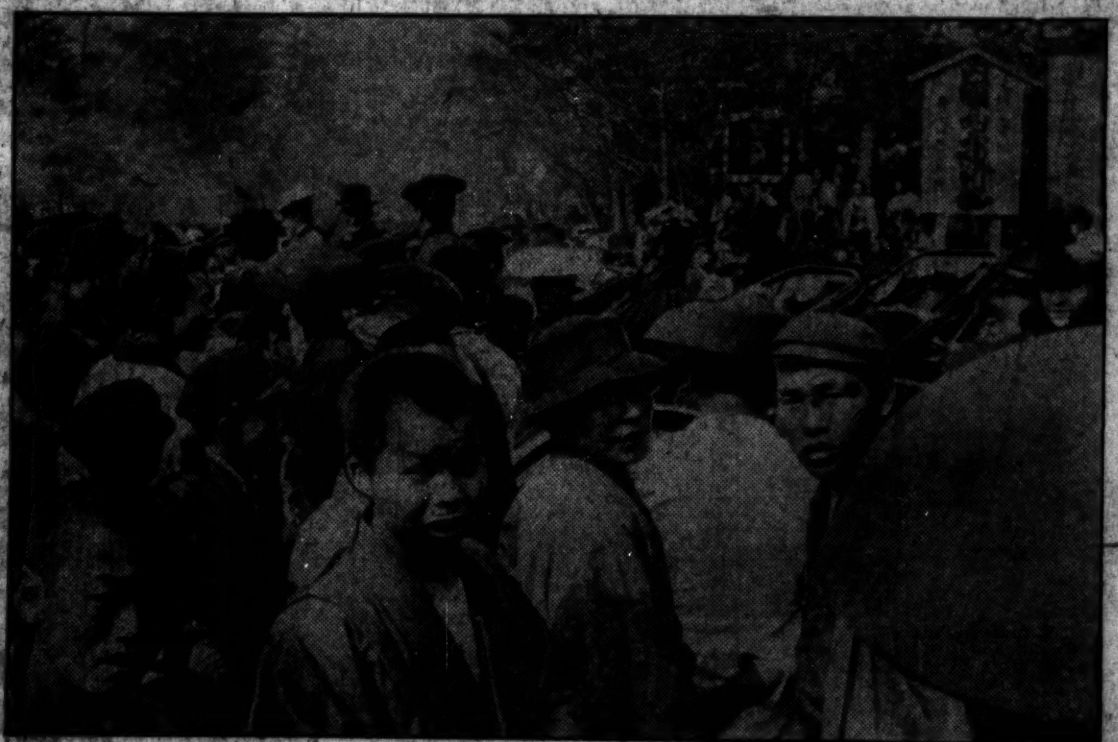

HER KIN WORRIED. Mrs. C. H. D. Fisher, 5429 Greenwood avenue, is in Japan.

UNACCOUNTED FOR. Mrs. E. R. Thompson is somewhere in quake zone, kin here believe. (Story on page three.)

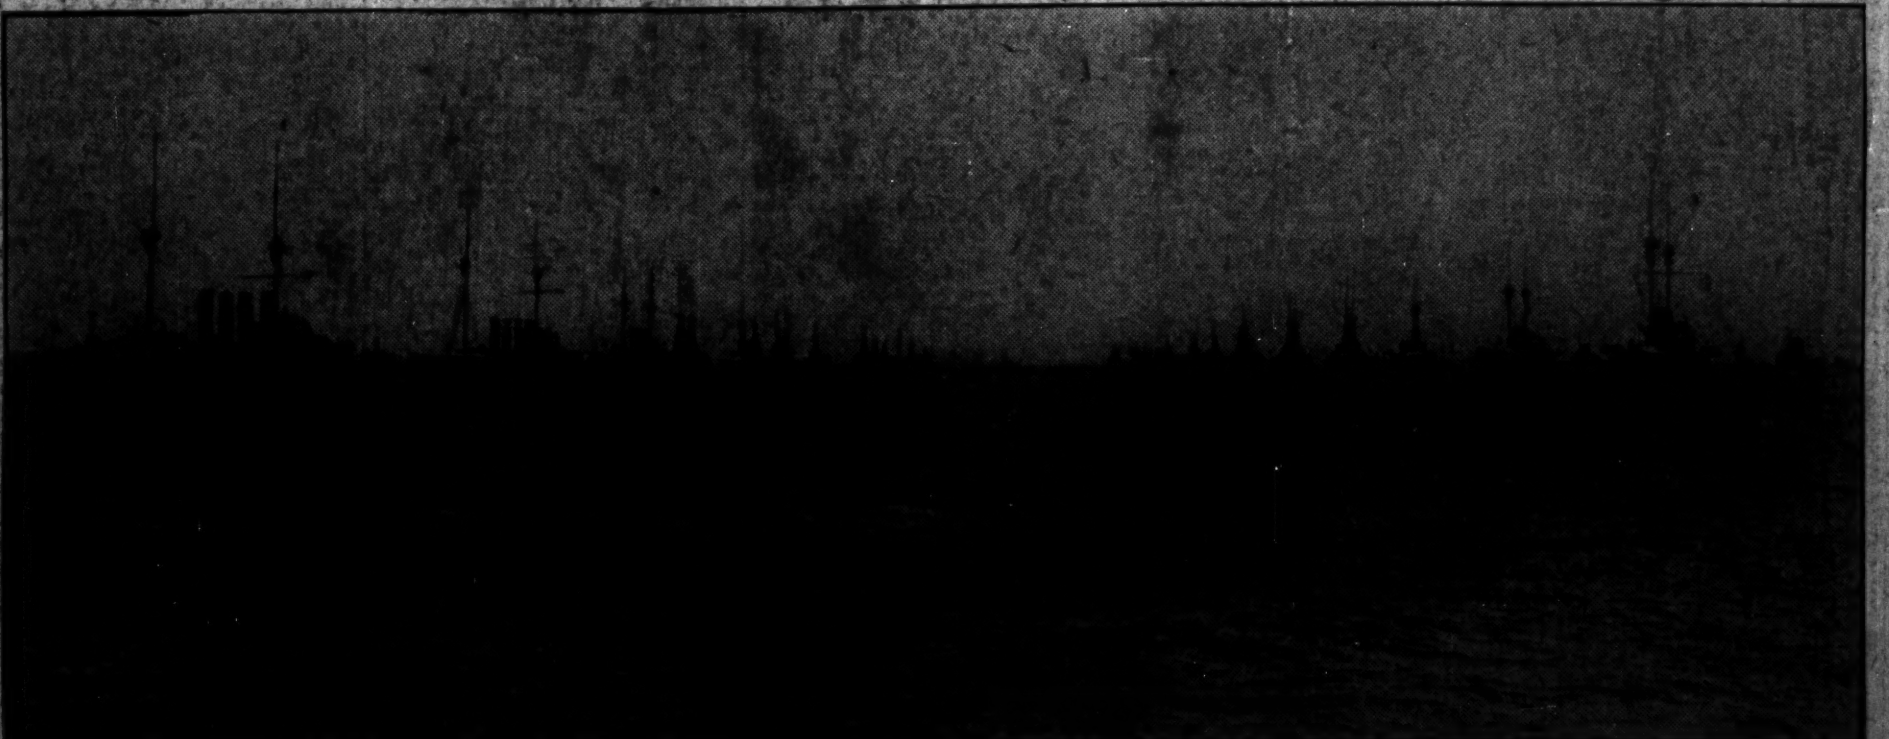

CHICAGO AIDS JAPAN. These men pledged more than \$100,000. Those seated: C. W. Folds, Edward Mandel, D. F. Kelly, Oscar Foreman, James Simpson, Mayor Dwyer, Julius Rosenwald, B. A. THOUSANDS OF THEM ARE HOMELESS. This is a typical Japanese crowd. The photo was taken in Ueno park, where thousands terrified by the quake and fire in Tokyo sought refuge. Many were injured in panic which followed. (Photo courtesy Cook Travel Service.)
